

FINIKS group

Biomedical industry since 1993
in Ljubljana, Slovenia

FINIKS group

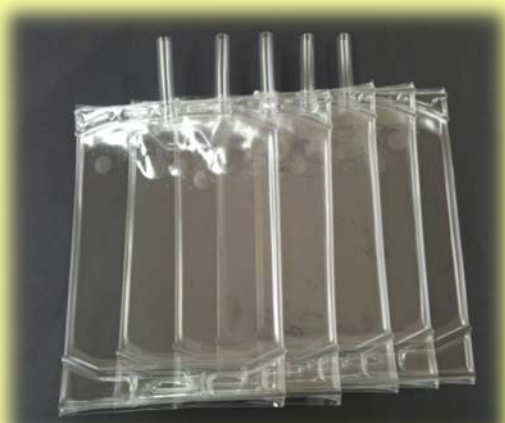

Bioiks d.o.o. is a manufacturing company with long tradition, which provides service of biomedical production in clean rooms for its strategic partners.

Under name biomedical product we understand products for single use (disposable products) such as plastic lines and accessories for blood dialysis, plastic lines and accessories for peritoneal dialysis, PVC drainage bags and PVC solution bags.

Large-volume production and capacity of drainage bags for hemodialysis lines and devices, as well as production of bags for hemodialysis and peritoneal solutions positions company Bioiks d.o.o. at the top of european manufacturers of bags.

Back in 1995, main mission of a newly-established company was production of drainage bags for hemodialysis for the well-known multinational company. First group of 5 workers began to work on 30. 5. 1995 under leadership of managing director dr. Rudolf Ročak and with technical support of company Hitti d.o.o. In the beginning of 1998 the company began to assembly also blood dialysis lines.

Today, Bioiks d.o.o. continues the tradition of producing dialysis lines and drainage bags for two big multinational companies, Gambro and Fresenius, as well as production of solution bags for Italian company SIFRA. Bioiks d.o.o. produces about 18 million drainage bags per year, about 1,5 million CAPD lines and about 250.000 APD lines for peritoneal dialysis and about 4 million solution bags per year.

In year 2003 the company was given the certificate of quality ISO9001:2000, since year 2007 it holds certificate of quality ISO13485:2003, which is granted to manufacturers of biomedical products. Company Bioprod d.o.o. got the CE registration for selling products under brand name Pharmagena.

GROUP presentation

Co-owners of FINIKS from left to right :
Zlatko Bele, dr. Rudolf Ročak, dr. Iztok Šorli

Late spring in front of Bioiks

BIOIKS yearly production capabilities

30 mio PVC drainage bags

2l, 3l, 5l 9l naked or as accessories

15 mio PVC solution bags

250ml, 500ml, 1l, 2l, 3l, 5l, 6l, 10l naked or assembled

5 mio equivalent dialysis blood lines

2mio accessory lines

1,5mio lines for CAPD dialysis

0,5mio lines for APD dialysis

BIOIKS capabilities

Bioiks vision and strategy :

Industrial production of biomedical products with the finest quality.

The combination of manual and automatic assembly with a very slim overhead structure (only 11 out of 450 employees) enables stable performance at affordable cost.

Investments in the structure (3.800 m² of clean room and 5.500 m² of auxiliary and warehouse area) allowed the group to become a reliable partner to its customers.

To our customers we offer a complete supply chain service.

BIOIKS capabilities

Continuous improvement, state of the art quality system, transparency of internal quality data, well trained personnel and quality control team led to very low complaint level from the market

- ✓ only 14ppm complaints for blood lines
- ✓ less than 1ppm complaints for drainage bags

Bioiks has been ISO13485 certified and audited by BSI for more then 10 years.

Bioiks holds its own CE certificate for infusion lines issued in 2004 and renewed in 2012

CERTIFICATE OF REGISTRATION
Quality Management System

This is to certify that

Bioiks d.o.o.
also trading as Bioprod d.o.o.
Stegne 11
Ljubljana
1000
Slovenia

Hold Certificate No: **MD 77271**
and operate a Quality Management System which complies with the requirements of **ISO 13485:2003** for the following scope:
The design, development and manufacture of sterile catheters, infusion and transfusion lines
The subcontract assembly of medical device components in a clean room environment

For and on behalf of BSI:

David W. Ford, Executive Director, Healthcare and Testing
First Issued: 15 Mar 2004 Date: 2 Jun 2010
Expiration Date: 14 Mar 2013

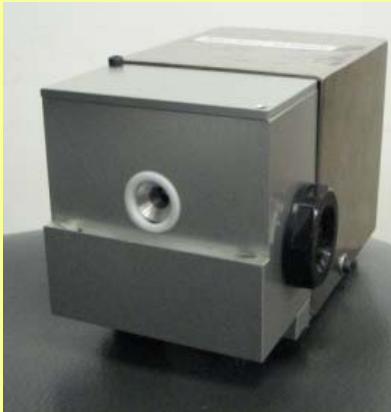

This certificate remains the property of BSI and shall be returned immediately upon request.
The British Standards Institution is incorporated by Royal Charter.
Group Headquarters: 389 Chiswick High Road, London W4 4AL, UK.

BIOIKS capabilities

In house development, design and manufacturing of tools, small accessory equipment and robots to support large scale production of biomedical devices.

Manual & automatic tube cutters

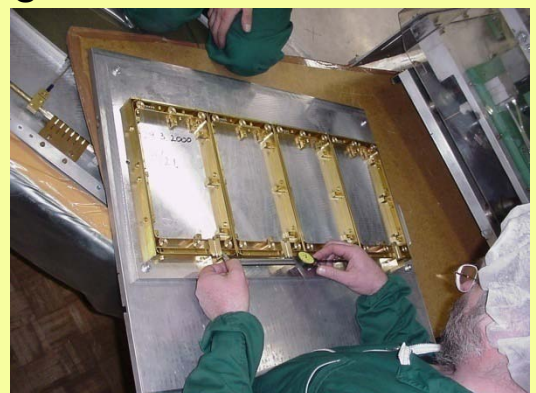

Glue dispensers

Construction of assembly robots

Manufacturing of tools for RF welding machines

BLOKS capabilities

**Manual production of subassemblies and lines
for blood and peritoneal dialysis**

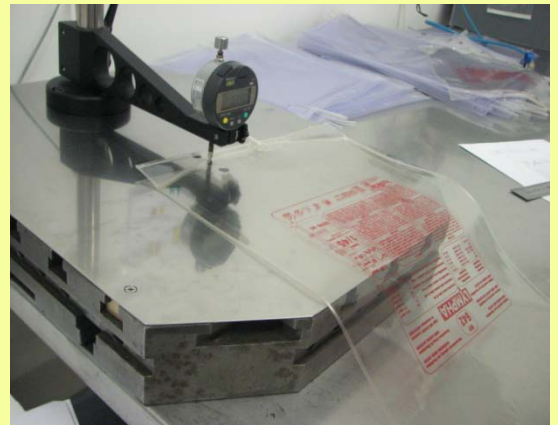

BIOIKS capabilities

**Automatic tube cutting and automatic assembly
on Bioiks constructed machines**

BIOKS capabilities

Production of drainage and solution bags

OUR TYPICAL PRODUCTS

THANK YOU VERY MUCH
